CHILLI CONTENT

Normally Cantonese cuisine is very mild, and contains little if any chilli in its preparation, however, during the natural evolution of the culinary arts, other styles of cooking have been adapted to suit current tastes. For instance, the 'Numtung' dishes have been derived from Malaysian Cuisine and hence contain a lot of chilli. To help in your choice of dish we have denoted the chilli content as follows:

- ▼ Some chilli content, very mild
- ▼▼ Moderate chilli content
- ▼▼▼ High chilli content, very hot

Cantonese cuisine is very extensive, whilst we have tried to be as comprehensive as possible with the menu, if there is anything you would particularly like, and it is not on the menu. *Please ask!*

GLUTEN INTOLERANT?
We have lots of choices for you. However we cannot guarantee that our dishes are 100% free of gluten due to the risk of cross contamination.

FOOD ALLERGIES AND INTOLERANCES
Because of the nature of Cantonese cooking, some of our foods contain allergens. Please speak to a member of staff for more information.
